

# New Zealand Child / Booster Seat Requirements

The safety of our customers is of the utmost importance to Apollo. Therefore we have developed a **best practice** approach to Child Restraints. We aim for the **best safety** (not just recommended levels) for our clients' children.

Clients can rent Child Restraints (must be pre-booked) from Apollo for \$20 per rental. It is the client's responsibility to fit them to the vehicle (our branch staff are legally unable to fit them or advise on how they should be fitted) and we require that clients follow the instructions below:

Capacity										
Vehicle	Euro Camper	Euro Star	Euro Deluxe	Hitop Camper*	Euro Tourer					
	Either	Or	Or	Either	Or	Or	Either	Or	Or	No child restraints permitted
<b>Baby Capsules</b>										
<b>Baby Seat</b>	2	-	1	2	-	1	2	1	-	
<b>Booster Seat</b>	-	2	1	-	2	1	2	3	4	

\*Hitop: A child travelling in the Hitop must be a minimum of 8 years old and must use the 3 point seatbelt when travelling. Only 1 child is allowed to travel in the Hitop at one time. The upper bed of the Hitop has a maximum weight capacity of 50kgs and it is not recommended that any person above this weight use this bed.

Baby Capsules (Not Permitted)		Baby Seats	Booster Seats
<b>Weight</b>	0 to 9 kg	9 to 18 kg	14 to 26 kg
<b>Age</b>	0 to 6 months	6 months to 4 years	4 to 7 years
<b>Length</b>	up to 70 cm	over 70cm	up to 140cm

No child restraints are required for children over min. 140 cm, **OR** over min. 26 kg **OR** 8 years of age (on average)

**PLEASE NOTE:** All child restraints used in New Zealand must comply with current New Zealand standards. Most overseas child restraints do not comply with these standards and cannot legally be used in New Zealand - this includes but is not limited to restraints from countries such as the UK and USA.
